PROFESSIONAL SUMMARY

Motivated and technology-driven Computer Science undergraduate with hands-on experience in Python, C++, JavaScript, and AI/ML concepts. Demonstrated ability to design and deploy end-to-end solutions — from intelligent security systems to AI-powered user-safety platforms. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and full-stack web development. Actively participates in hackathons and collaborative projects, bringing analytical thinking, rapid skill acquisition, and a results-oriented mindset to every endeavour. Seeking opportunities in Software Engineering, Data Analytics, or Machine Learning to apply technical expertise and drive impactful innovation.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript

Web Technologies: HTML5, CSS3, JavaScript (ES6+)

Database & Storage: MySQL, SQL Query Optimization

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), REST APIs, AI/ML Fundamentals

Tools & Platforms: Git, GitHub, VS Code, Arduino, Linux (Ubuntu), Postman

Soft Skills: Problem Solving, Team Collaboration, Analytical Thinking, Adaptability, Time Management, Effective Communication

PROJECTS

AI Guardian — AI-Powered Security & Monitoring System

Python | AI/ML | REST APIs | GitHub

- Engineered an intelligent security monitoring solution leveraging AI/ML algorithms to detect suspicious activities and analyze user interaction patterns with improved threat identification accuracy.
- Implemented automated threat analysis pipeline integrating REST APIs, reducing manual review effort and enabling real-time anomaly detection across system workflows.
- Architected secure backend logic with optimized data pipelines, improving system reliability and scalability for high-volume monitoring use cases.
- Applied version control best practices using GitHub for collaborative development, maintaining clean commit history and modular codebase structure.

SafeSpace AI — AI-Driven User Safety & Support Platform

Python | NLP | Web Technologies | AI Chatbot

- Designed and developed a full-stack AI-driven platform to foster safer digital communication, integrating NLP-based chatbot functionalities for real-time user guidance and support.
- Built intelligent response modules using AI/ML models, enhancing user experience through contextually aware, adaptive interactions and resource recommendations.
- Implemented accessibility-focused features and real-time interaction handling, improving platform engagement and usability across diverse user demographics.
- Delivered a scalable, modular architecture addressing real-world digital safety challenges, with clear separation of concerns and maintainable codebase.

EDUCATION

JSS Science and Technology University — Mysuru

Expected: June 2028

Bachelor of Engineering (B.E.) in Computer Science and Business Systems (CSBS)

- Pursuing undergraduate studies with emphasis on software development, AI/ML, and emerging technology innovation.
- Actively engaged in project development, competitive problem-solving, and cross-functional technical learning.

- Completed science-stream pre-university education with a strong focus on Mathematics and analytical reasoning.

CERTIFICATIONS

Data Analytics Virtual Internship — Deloitte 2024

Gained practical exposure to data analytics workflows, business intelligence concepts, and data-driven decision-making methodologies.

ACHIEVEMENTS & EXTRACURRICULAR

- Conceptualized and independently built two end-to-end AI-powered applications (AI Guardian, SafeSpace AI), demonstrating full-cycle product development capabilities.
- Actively participated in intercollegiate hackathons, collaborating under time constraints to prototype innovative software solutions.
- Pursues continuous self-directed learning in emerging technologies including AI/ML, cloud computing, and cybersecurity frameworks.
- Creative interests in photography and videography, demonstrating strong visual communication and attention to detail.
- Avid explorer and fitness enthusiast (hiking, gym), reflecting discipline, perseverance, and a growth mindset.

LANGUAGES

English (Professional Proficiency) | Kannada (Native) | Hindi (Working Proficiency)
